

# Sentocks

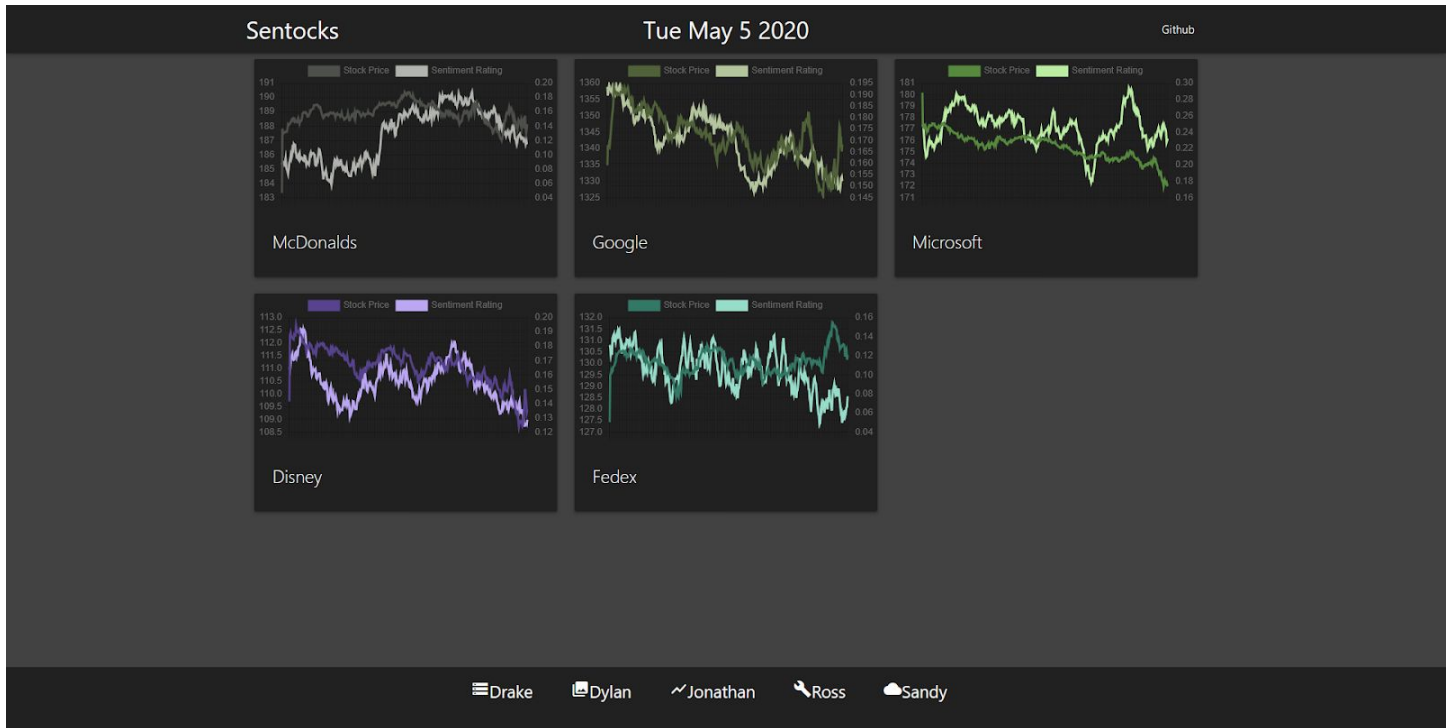

## User Manual

Drake | Dylan | Jonathan | Ross | Sandy

To access the **Sentocks** user interface, open any web browser on your computer and go to [sentocks.sandyuraz.com](https://sentocks.sandyuraz.com)

There you will see the following screen

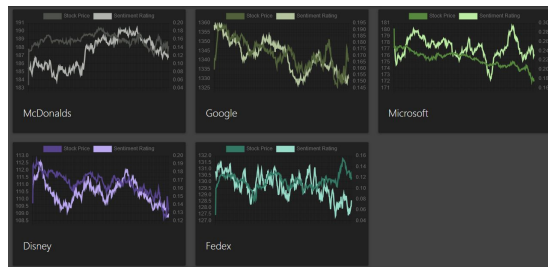

There are **three** parts to this view:

- Header

- Graphs

- Footer

First, we'll look at the **header**

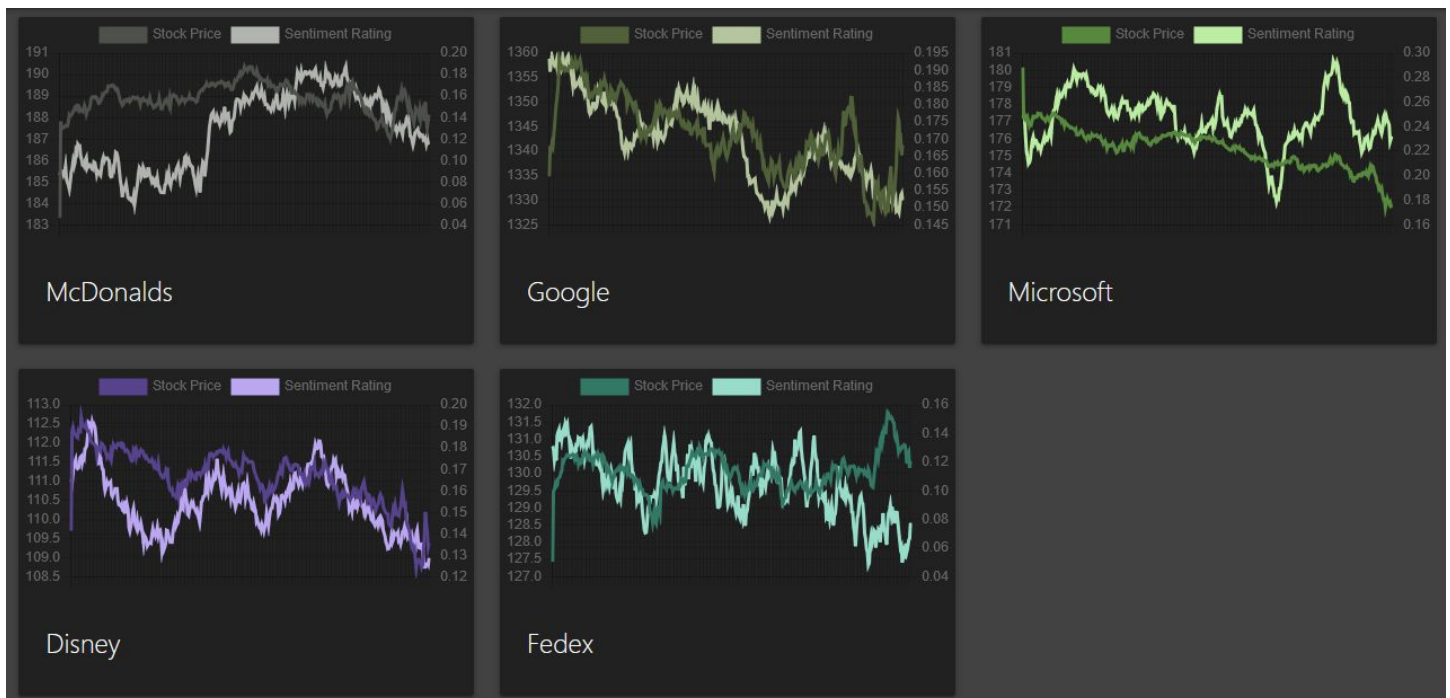

The header consists of the **Sentocks title** on the far left, the **current day** in the center, and a link to the **source code** on the far right

We'll look at the footer next

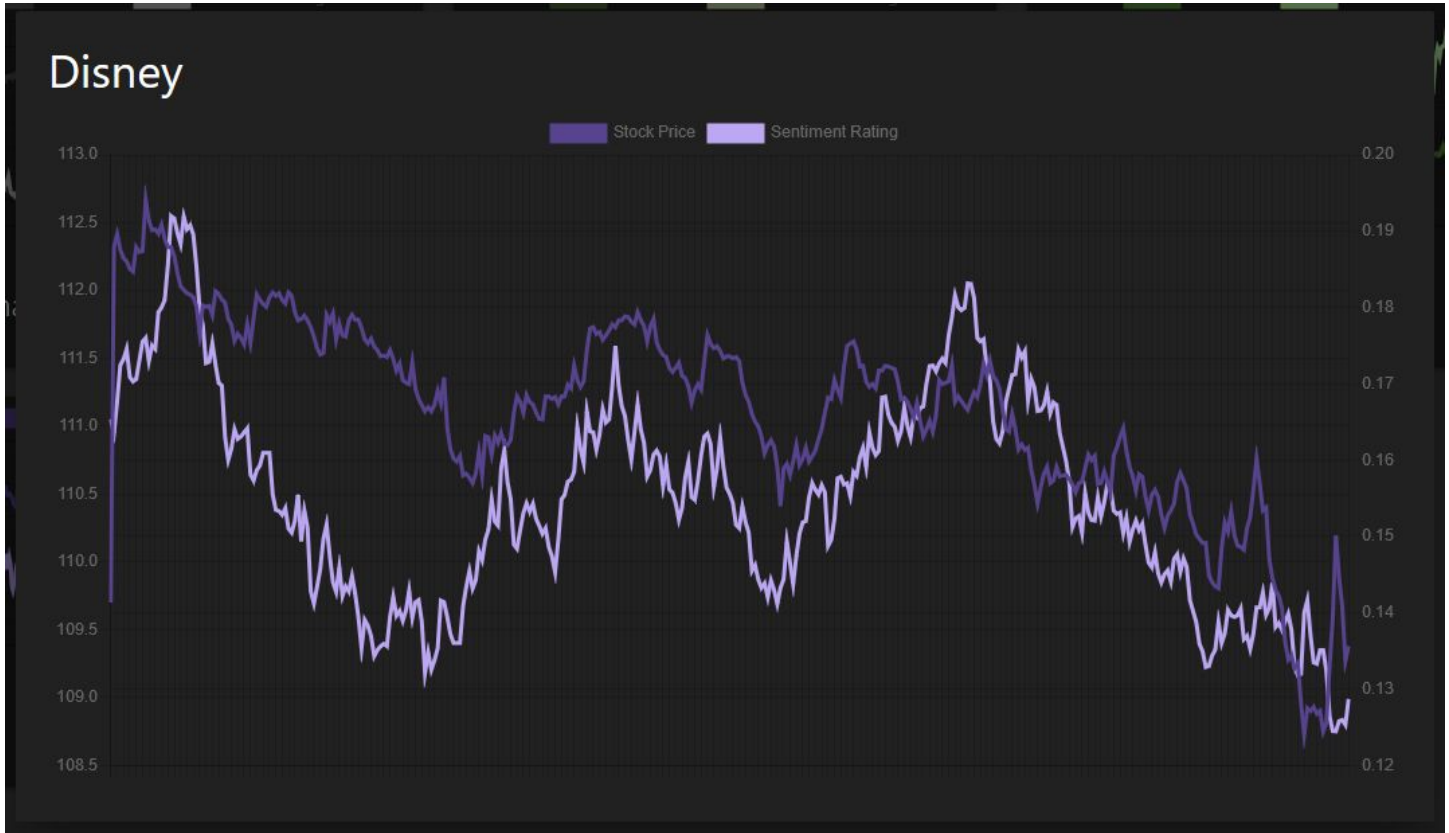

Here we see nothing more than the **names** of the creators

Last, we'll look at the graphs

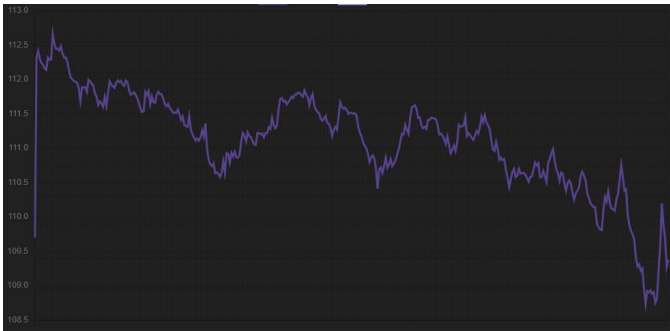

By default, we see a zoomed out view of each of the graphs

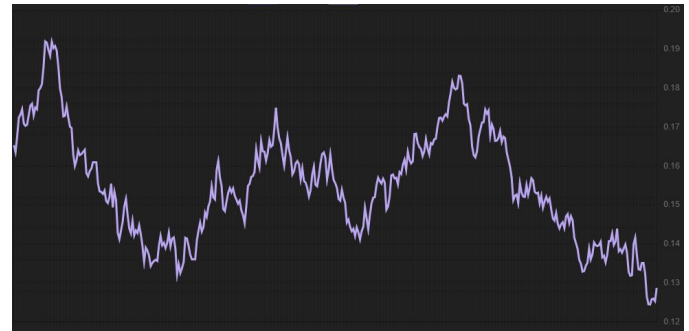

By clicking on one, we see a larger version of that graph

This consists of a **time**(X-axis) vs **stock price**(Y-axis) graph

And is overlaid by a **time**(X-axis) vs **sentiment value**(Y-axis) graph

The sentiment value ranges from the worst(**-1**) to the best(**1**)
